Commissioner for Patents

The amendment filed on 6-28-04 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because they are newly drawn to, "A method of identifying a compound that modulates binding of SAA (serum amyloid A) to FPRL1 (formyl peptide receptor-like 1 receptor comprising: (a) providing a test compound that is a peptide, peptidomimetic, or chemical; (b) contacting a cell that expresses a FPRL1 receptor with the test compound in the presence of SAA; and (c) measuring binding of SAA to said FRPL1 receptor, so that a compound that modulates binding of SAA to said FRPL1 receptor is identified," whereas the previously elected and examined claim was drawn to, "A method of making a pharmaceutical product comprising: providing a peptide agent having a sequence corresponding to Serum amyloid A (SAA) or FPRL1, or conservative variants or functional fragments thereof; providing a cell having a molecule of FPRL1 that interacts with the peptide agent; contacting the peptide agent with the cell under conditions that allow the peptide agent to interact with the FPRL1 molecule on the cell; identifying the presence or absence of signal transduction generated in response to the interaction of the peptide agent with the FPRL1 molecule; and incorporating the peptide into the pharmaceutical product."

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
